In-class Jigsaw activity

Learning 5 phases of fundamental test process via Jigsaw activity

Every students in a group has been assigned to expert group

- Expert A - Test Planning and Control
- Expert B - Test Analysis and Design
- Expert C - Test Implementation and Execution
- Expert D - Evaluating Exit Criteria, Reporting and Test closure activities

5

Jigsaw activity: Task 1 (30 minutes)

- In Home Team, every **EXPERT – A, B, C & D in 30 minutes**
  1. Read the given slides and try to understand the assigned phase of fundamental test process
  2. You can read other materials as well and watch the videos given in the GC.
  3. After 30 minutes, summarize your understanding by drawing a mind map in your own paper that describe;
     - ✧ **Activities/tasks that possibly to be conducted in selected phase**
     - ✧ **Deliverable that possibly to be produced in selected phase**

6

In-class activity: Task 2 (30 minutes)

- Next, ask member from **Home Group** move to assigned Expert Breakout Room in Discord (A, B, C & D).
- Sit in Expert Group:
  1. Everyone pitch their idea on the draft of mind-map in 1 minute.
  2. Discuss, make consensus among Expert member, and come out with the best mind-map that should have:
     - ✧ **Activities/tasks that possibly to be conducted in selected phase**
     - ✧ **Deliverable that possibly to be produced in selected phase**
  3. Draw the mind-map in the assigned Jamboard.
  4. Ensure each Expert member understand the mind-map since they will require to explain to their Home group member.

Jigsaw activity: Task 3 (30 minutes)

- Return to Home Team Breakout Room in Discord
  1. Round the corner (go through every Jamboard)
  2. Every Expert try to
     - Explain to your mates on the assigned phase in Team
     - Breakout Room in Discord
     - Ensure everyone understand each techniques
     - Q & A

Be back to webex for next topic lecture at 2:00 pm.
